Dear Harold,

I have copied the [redacted] Lattimer paper and am returning it to you; thanks. I am sure that Gary could most easily get you a copy of his previous paper (reference 15 in this paper). This seems to have been written by the younger Lattimer, but nonetheless there are things of value in it.

The DeBrueys report is CD 1114, Folder VI, Document 29, pages 24-41.

I don't expect to be able to figure out the doctoring of Odum DE 1 without being able to dig around at the Archives. If you think you might want to take the time (not much), I can write down in detail what I would look for.

Reference to Adm. Kenney: 22H96.

Hastily,
Paul
